GRU'S CUSTOMIZED BUSINESS REBATE PROGRAM

The intent of this rebate is to encourage cost effective electric power demand and energy reductions through the use of industry best practices associated with the retrofit of commercial equipment.

Rebate: Up to \$100,000 or 50% of project implementation cost, whichever is less. Projects that have a simple payback of 1.5 years or less will receive 1/2 of calculated rebate.

Eligibility / Requirements

- The customized business rebate applies only to GRU customers that have commercial electric service and a satisfactory payment history.
- Satisfactory payment history is defined as no order for termination of service for nonpayment having been issued nor more than two returned checks or other payments not honored by a financial institution within the immediately preceding 12 months - City of Gainesville Code of Ordinances 27-7(A)(1).

Terms & Conditions:

- Rebate amount will be determined based on calculated electric savings for commercial equipment retrofits using the total resource cost (TRC) cost-effectiveness test.
- Baselines for retrofit measure savings evaluation will be existing equipment efficiency and/or historic electric consumption.
- Retrofit measures must comply with all applicable codes and regulations.
- GRU rebate will be calculated after any other rebate or incentives associated with retrofit have been applied.
- In order to receive consideration for this rebate, applicants must submit a written proposal that includes the following information:
 - ◇ Project scope of work
 - ◇ Estimated project cost
 - ◇ An engineering analysis detailing electric demand and energy savings calculations for all proposed retrofit measures
 - ◇ Schedules of operation for all proposed retrofit measures in order to compare energy reductions coincident to GRU's seasonal peak periods: *Summer peak (May 15 - Oct 15): 12:00 noon through 9:00 p.m. including week ends and holidays. Winter peak (Jan 2 - Feb 28): 7:00 am through 11:00 am and 6:00 p.m. through 10:00 p.m. excluding weekends.*
 - ◇ GRU reserves the right to require that the submitted engineering analysis be certified by a professional engineer (PE.) GRU will inform applicants in writing within 30 days if a PE seal is required.
- Rebate will be awarded upon;
 - ◇ GRU field verification of scope of work
 - ◇ Customer submittal of receipt(s) or other documentation satisfactory to GRU detailing actual installed costs for the scope of work.
- Rebate applies only to new projects. Consideration will not be given to retrofit measures installed prior to proposal approval.
- GRU reserves the right to issue the rebate as either a credit on the GRU bill or a check to the customer.
- By accepting this rebate, Customer agrees to hold GRU, its officers and employees harmless from liability for any loss, cost or damage sustained by any person or property as a result of this program.

Disclaimer: By offering this rebate, GRU makes no guarantees as to any savings that may be achieved by the completion of project scope of work. Verification of savings is the Customer's responsibility.

Restrictions:

1. Rebates are subject to change without notice
2. All rebates are subject to approval and are contingent upon fund availability.
3. Limit of \$100,000 per Business Partner
4. Retrofit must be completed within 120 days of GRU approval.

Effective: 12/14/09
