

Tired of being left in the dark when your tenants leave?

With GRU's Leave It On service, electric, gas, water, wastewater and solid waste services will remain active after a tenant leaves, so landlords can clean up and prepare for the next tenant.

If you have maintained a satisfactory account with GRU or another utility for at least two years, you may be qualified to sign up for this program. Certain restrictions may apply. Please allow 10 business days for account updates

Save Money and Time

Don't wait until the next day for a utility hookup.

After the initial turn-on fee, the activation charges will be waived. (You can save as much as \$100 on each rental unit when the service is switched to you!) However, if you turn the service off after it has been activated in your name, there will be a reconnect service fee.

All applications must be returned with a copy of signatory's valid driver's license.

Convenient Service Transfer

Utility services will automatically transfer to you when your tenant moves out. No calls, emails, or visits to GRU necessary! However, for your protection, the service will not automatically switch if the utilities have been disconnected for non-payment. A call to the customer service department will reinstate service on the following workday. A \$40 fee will be assessed to the account if same-day service is required. Stormwater and trash pickup are automatically activated.

Early Notice

When the account is switched to your name, you will be mailed a courtesy notice. The service will remain in your name until the new tenant moves in or unless notified otherwise. The notice GRU sends may be your first notice that your tenant is moving. This gives you a head start on preparing for the next rental.

Easy Sign Up

All you need to do is send in the Leave it On form to add or make changes to the service.

If you have maintained a satisfactory account with GRU or another utility for at least two years, you are already qualified to sign up for this program. Please allow 10 business days for account updates.
