Chief Operations Officer
Gainesville Regional Utilities
301 S.E. 4th Avenue
Gainesville, FL 32614-7117

RE: GREC Summer 2017 Dependable Capacity Test

Dear Tom:

This letter is to confirm the results of GREC's successful Dependable Capacity test performed on May 29, 2017 as directed by GRU. The GREC facility operated a 12 hour average net output of 103.05 MW. The meter data is attached. At the conclusion of the test, as communicated to you, GREC was available to continue to operate, but effected a complete shutdown of the Facility's generation and returned to Cold Standby Status as directed by GRU.

In accordance with the requirements of Appendix IX, Section 2.2 under "Operational Capacity Testing," of the Power Purchase Agreement, we are providing notice that we will continue to claim a Dependable Capacity of 102.5 MW during the upcoming Summer Period.

Sincerely,

Leonard J. Fagan
Vice President of Engineering
GREC Asset Manager

LJF/ctw
